- Maximum bat barrel diameter is 2 3/4 inches. No BESR bats allowed or any bats that altered in a way that hides the BESR mark. (Drop +10 min, BBCOR – must be able to read bat)
- A runner is out if they do not legally slide and they cause illegal contact; or they illegally alter the actions of the fielder in the act of making a play.

When determined the Infield Fly Rule applies; the umpire shall declare “Infield Fly Rule” for the batter being out and for the benefit of the base runners to advance after retouching their base.

BLOOD RULE: Applies to any player, coach, umpire, or official who is bleeding, or found to have fresh blood visible on his/her uniform or person. If at any time an umpire, coach, or official sees blood on the uniform or body of a player, coach, umpire, or official, the game shall be stopped, and an adult should treat the wound by cleaning and covering the area. If a uniform has fresh blood visible, that uniform part shall be exchanged for a non-contaminated clothing article part. If no uniform replacement is available, any clothing article may be substituted. There shall be no violation for wrong color. The bleeding must be stopped completely, and covered, before the player can re-enter the game. An injured player will be given ample time for treatment and clothing exchange. If the umpire decides the delay is too long, the game will resume with a substitute player. Once the injured player has finished receiving treatment and/or uniform exchange that player will be allowed to immediately re-enter the game.

In case of serious injury involving unconsciousness or suspected fracture, comfort the injured person, maintain the integrity of the injury, and follow your area’s guidelines for contacting trained assistance. Do not move the injured person and do not allow this person to re-enter the game.
